

## Cooperation

### Dear spare parts and components for boiler equipment repair and maintenance producers!

Our company is looking for long-lasting and productive cooperation with reliable producers and suppliers.

We are successful on Russian consumer market, as well as on the Ukraine, Kazakhstan, Uzbekistan and other CIS markets, and are ready to offer the most favorable conditions for business partnership.

#### Advantages cooperating with us:

- Additional broad distribution channels for your products and entry into vast Russia and CIS markets;
- Partnership with an experienced and reliable reseller of your products, complying with the Russian Federation legislation and paying all necessary taxes;
- Timely execution of all financial commitments;
- Assistance in products certification and in obtaining Federal Service for Environmental, Technological and Nuclear Supervision authorization for the products you manufacture;
- Opportunity to take part in specialized fairs and exhibitions held on the territory of Russia and CIS;
- Qualified promotion of your products.

As a result of long lasting and successful cooperation we would be glad to consider organizing a specialized service center for your products increasing its promotion and brand awareness among potential consumers.

#### Important points to consider while making a decision on long-term cooperation:

- Minimum products delivery time;
- Vast range of high quality products;
- Full document support of delivered products;
- Instant information on shelf stock and product assortment;
- Supply payment instalments;
- Special pricing;
- Opportunity to train our specialists on the manufacturer plants.

We carefully consider all cooperation offers from manufacturers as well as from reliable spare parts and components for boiler equipment repair and maintenance suppliers.
